

Nanosafety in Focus

Stand #18-19-20

EuroNanoForum
2019

16 Horizon 2020 projects
Bucharest, 12-14 June 2019

Visit the NanoSafety Cluster stand and meet 17 Horizon 2020 projects!

Learn about project activities and talk to Europe's leading experts.

Find out how projects impact your work in the development of safe and innovative nanomaterials.

Take part in our packed on-stand agenda, including project presentations, 'meet the expert' sessions and a networking session with NanoSafety Cluster researchers.

Stand Agenda

Wednesday, June 12

1130 Meet the Expert - Dr David Schmid

Nano-related systems engineering

1245: Project presentations - Innovation in Industry

- ACEnano
- BIORIMA
- GRACIOUS
- LORCENIS
- Necomada
- nTrack
- ModComp

1500: Meet the Experts - Dr Lucian Farcas

Data management, 3Rs and alternative methods to animal testing

1700: Project presentations - The value of data

- caLIBRAte
- Nanocommons
- NanoInformaTIX

17h30 NSC community get2gether

Network with the nanosafety community

Thursday, June 13

0930: Meet the Experts - Andreas Falk

Implementation of Safe by Design

1030: Meet the Experts - Professor Eva Valsami-Jones

Characterisation

1130: Meet the Experts - Professor Shareen Doak

Nanogenotoxicology, human hazard assessment, 3D human tissue models

1330: Project presentations - Alternatives to animal testing

- NanoSolveIT
- npSCOPE
- PATROLS
- SmartNanoTox

1430: Meet the Experts - Professor Vicki Stone

Human hazard assessment, alternatives to animal testing, grouping and read-across
