

AGENDA

0900	Coffee and registration	
Opening session – Nanotechnology into the future		
0930	Welcome	Claire Skentelbery, Nanotechnology Industries Association
0940	Nano in action: Textiles	Vera Chetty. Chief Technical Manager, Nonwovens Innovation & Research Institute Ltd
1000	Nano in Europe: EU vision and strategy	Carlos Eduardo Lima da Cunha. Policy Officer, European Commission
1020	Nano in society: Part of the nano story	Hilary Sutcliffe. Director, TIGTech
1040	Nano in business: Enabling nano in products	Gregor Schneider. Head of Department, RAS AG
1100	Coffee	
Session 2 – Regulation and standards priorities		
1130	A view from the regulator	Jenny Holmquist, ECHA
1155	A view from industry	Kai Paul, Consultant, Blue Frog Scientific Limited
1220	Nano-standards: Evolution and revolution	Denis Koltsov. Director, BREC Solutions
1245	Global Regulatory Working Group – NIA Member priorities within regulation	David Carlander, Director of Regulatory Affairs, NIA
1315	Lunch	
Session 3 – What goes around: Nano in waste		
<i>With nano-specific text emerging within regulations, waste is likely to become a focus for the future. This session brings together research and industrial perspectives to discuss potential long-term impacts and a position for industry within policy and regulation.</i>		
1415	Overview of nanowaste landscape for Europe	Tobias Walser. Managing Director, Vereala
1435	Perspectives from research - the nanoFASE project	Ralf Kägi. Head, Particle Laboratory, Swiss Federal Institute of Aquatic Science and Technology
1500	Perspectives from industry	NIA Members
1520	Regulatory frameworks around waste	David Carlander. Director of Regulatory Affairs, NIA
1540	Panel and audience discussion	
1630	Close and cocktails
